

1 Find the Wi-Fi network "CBCL-Guest" in the list.

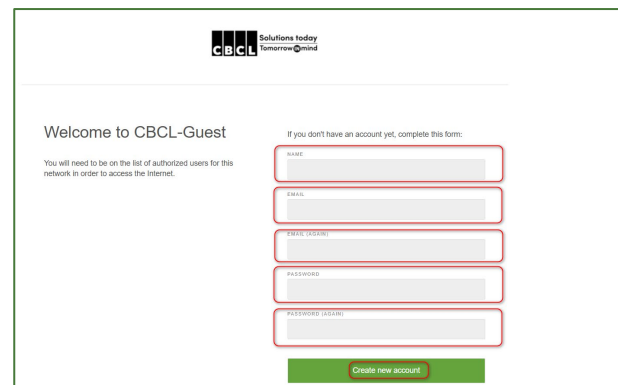

Important notice The CBCL-Guest network is intended solely for visitors and personal devices. It is not for use by CBCL staff, as it does not grant access to internal network resources, such as file shares, VantagePoint, or any other secure internal services. Staff members should use the designated internal network to access these resources.

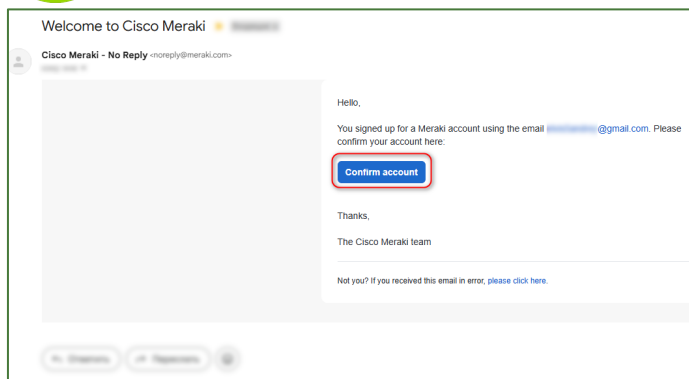

2 Click "Create Account."

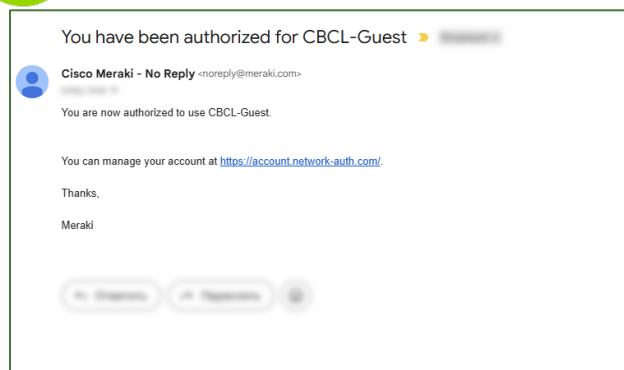

3 Fill in all the fields on the form (Name, Email, Confirm Email, Password, Create Password).

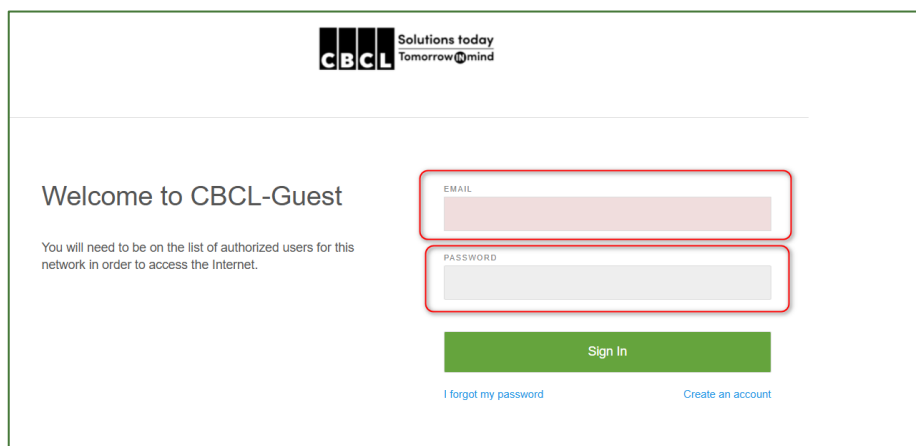

4 Check your inbox for an activation link.

5 After activation, you should receive a confirmation email.

6 Reconnect to "CBCL-Guest". Enter your email and password

After successful authentication, you should receive a notification that you are connected, and you can close the window.
